MOTOGIRO D'ITALIA CELEBRATES ITS 25TH EDITION

NEWS

04/03/2018

Dmitry turns the screw

Once again Dmitry Koltakov's superiority was evident as he produced another perfect score for the second day of the LUKOIL FIM Ice Speedway Gladiators...

[Summary](#)

The historic Motogiro is the most important touring event for historic motorcycles in the world. It draws on the tradition of the competitive Mototour that took place from 1953 to 1957. More than 500 riders took part in the original race which was considered as the Mille Miglia for two wheelers, with the official participation of the most important motorcycle producers of the time.

Nowadays, thanks to the importance it has taken on over the past 25 years, the Motogiro has increasingly secured its place on the international agenda, with two-thirds of the participants hailing from other countries or, better still, from other continents. The choice of route and the programme for 2016 have been particularly appreciated and have attracted many American, British, Dutch, Spanish, German and for the first time, even Turkish riders.
